

Sampleroom

Your whole range on your PC

Sampleroom is an interactive range visualisation tool, that allows you to manage, analyse and present your range. An indispensable decision support and presentation tool that makes it easier to build balanced product ranges.

Enjoy easy testing and presentation of your ideas to colleagues. Sampleroom includes a collection of tools that automatically process your photos and keep your data up to date. And when you are ready to place your order, Sampleroom can send data straight to your purchase order processing system.

Features

- Powerful, simple database browsing
- Visual analysis of your range
- Clear storyboards to present your range
- Range books in minutes
- Automatic data importing and image processing

Benefits

- Full visual access to your fashion range
- Visual Reporting at an instance
- See your fashion range from any angle
- Range books in minutes
- Sampleroom facilitates joined up thinking
- Easy data collection
